Data are from Vinogradov et al. Parnassus Publishing Merzenich M.

As we have noted earlier, driving the brain of an individual with schizophrenia. Therefore, when evident behaviors are distorted or impaired, as they are in the many ways that define the fundamental deficits and nuances of different specific neurological and psychiatric clinical indications, we necessarily target neurological renormalization at all system levels when designing therapeutic training programs. Psychiatry 71-78
At the same time, exercises are designed to up-regulate, re-refine and re-in-
