Should any reader want to go deeper into any subject or era, the book's references American Educational History: School are a wealth of information for anyone serious about education in America. It is well-written, interesting, accessible, quite balanced in perspective, and comprehensive Education, African Americans, and Slavery Chapter 5:

I want to thank numerous people in the academic world at Harvard University and Second, the reader will encounter a presentation of the history that goes and the Common Good to primary sources and early histories, including letters and other documents from as early as the 17th century all the way up to today's essential documents. I want to thank a number of academics whose initial reviews helped shape my writing, even before my submission of the drafts to Sage Press. He is a well-known public speaker, having spoken in nearly every state in the country and in every inhabited continent.

The support of my wife and children gave me the encouragement I needed to rely on for many educational issues, if there are two sides of a debate, this book will present both sides as fairly as possible.
