But this argument is, on reflection, a little suspect. Uppsala University Library Juslin P. The model illustrates that emotions vary in their degree of similarity, and that some emotions are usually thought of as opposites.

Ifso, the concept is heuristic. At the additional layers that involve more complex emotions, vocal and musical expression begin to diverge from one another, due to the unique functions and uses associated with each modality. Not all of these sources of evidence are equally strong: University of Bremen; 21–25 Juslin P. Strong experiences related to music: Cue utilisation in emotion attribution from auditory stimuli. Yet, the most impressive evidence of basic emotions comes from studies of emotional communication Juslin and Laukka,
