It pretty much is a running gag, the gag being how ridiculous  
it is to force people to conform to this trope and the extra  
miles the show goes to make it blatantly obvious. You're  
living in a dumpster? However, the rights to Transformers  
comics has changed hands over the years, and IDW cannot use  
either the name Josie Beller or Circuit Breaker, because  
Marvel Comics still has the rights to them they made sure to  
have her appear first in Secret Wars II just for that reason.  
Hobbitswere renamed to halflings, which is apparently OK even though The Lord  
In the Realm of Kings: Unlike Firefox, it retains the  
mythological bird name to this date. There was also an episode  
where Alexis is setting up a profile for Martha on a popular  
social networking site; Martha tells Castle that she's getting  
a " My Face " account.  
Originally he was to be named "Paxman", after the manufacturer of the Class 17  
Trilogy Megatron kept renaming himself to Galvatron and back  
so Hasbro could keep both names in active use.
